New York Delta Chapter of Pi Beta Phi at Cornell University

ITHACA, NEW YORK

WINTER 2005-'06

## A Special Message For Alumnae

Fellow Alumnae:

We have each given of time and heart to Pi Phi. In turn, we have praised it, defended it, cherished it, and even criticized it. But we keep giving back because of all it has given to us.

What Pi Phi has given us is unique, special, and unforgettable. You know this well: Young women have a living opportunity at NY Delta that affords incomparable peer support, leadership experience, the practice of self-governance, and the promise of lifelong friendship. And NY Delta offers this all in a setting that feels a lot more like home than any dorm could.

The facilities and programs needed to continue this special living oppor-

tunity require our attention and support. Not only do we need to have quality housing and dining facilities, but also we need quality community space, access to technology and program funding to help our undergraduates make a difference—on campus and off.

Today's Greeks also have a heightened community consciousness, thanks to all of the changes taking place in college and university life. Increasingly competitive residence and dining programs, with more restrictions and more options than students once had, are becoming the order of the day. This can—and should—bring out the

best in us by strengthening and preparing us for future change. Pi Phi is well poised to rise to this challenge.

Please join us as we look ahead with confidence in the unique value of Greek life. A gift to our 2005-2006 alumnae contribution program will give back in great measure. We look forward to bringing you news of the chapter's accomplishments (and, of course, updates fellow alumnae, as well!) as the year progresses. In the meantime, please keep in touch.

Yours in Pi Beta Phi,  
Beth Walkenbach '00

*P.S.—I hope you will find it in your heart and within your means to support us this year. If you did last year, you'll find your name on the enclosed donor list. You have our warmest thanks.*

## NY Delta Places Second At Greek Week

The girls of NY Delta showed great Pi Phi pride and spirit during this year's Greek Week competition.

During the week-long festivities, Pi Beta Phi participated in a banner competition, a volleyball tournament, a three-on-three basketball tournament, and a community service challenge. The competition was stiff, but the ladies of Pi Beta Phi pulled through and won second place in Greek Week!

Our most exciting victory was our first-place finish in the basketball tournament. Over 40 Pi Phis—representing every class—were there in support of the team. “Pi Phi spirit

was in full force during the game,” Lindsay Forman '07 remembers.

Colleen Tucker '08, one of the star basketball players, recalls, “I was exhausted by the final match and I thought I would have to sit out, but the overwhelming cheer from the crowd helped me rise to the occasion.”

The Greek Week competition worked closely with On-Site Volunteer Services—a student-run philanthropic organization—in order to incorporate community service into the festivities. Pi Beta Phi, along with a few other Greek organizations, was assigned to work on a preconstruction

site and help clear out an old house for renovation. Ten dedicated Pi Phis worked on the site for hours, ripping floorboards, stripping walls, and clearing piles of rubbish. Pi Phi stood out among the competition because of our large number of participants. The experience was truly amazing.

The dedication and support from the sisters of Pi Beta Phi led us to a remarkable triumph and a trophy that will forever reside in our home and hearts!

## National Convention: Finding Friends Across The Nation

It was a Friday afternoon in June, and as I sat by myself anxiously waiting for the plane to take off for Tampa Bay, I had no idea of what to expect for that weekend. Little did I know that the woman sitting next to me was feeling the same nervousness and curiosity about the next few days.

We realized shortly after the plane took off that we both were heading to Pi Beta Phi's 65th Annual Convention, and we quickly weren't strangers any more! In fact, the friendly and comforting conversation with a fellow Pi Phi on the plane was just a preview of the incredible experience I had as the alternate delegate for the NY Delta Chapter.

Kirsten Balzer '06 and I were honored to represent our chapter at the national convention, and it was honestly an experience we both will never forget. From June 24-28, we were among the hundreds of Pi Phi colle-

giate students and alumnae who attended the weekend packed with activities, speakers, legislation procedures, award presentations, and even a trip to the aquarium!

I met so many incredible women—from my very own roommate, a Pi Phi from Maine, to Emily Russell Tarr, the former Grand Council president. Looking back on it now, it's hard to even describe everything that I gained from the experience, but I can honestly say that it changed my understanding of the sorority.

Some of the weekend highlights included seeing the Grand Council in action, listening to the many inspirational guest speakers, and witnessing Pi Phis across several generations reunite. One of my favorite memories was the literacy walk, where 300 of us walked together and collected over 6,000 books for donation in support of our Links to Literacy philanthropy.

Our focus on our national philanthropy didn't stop there, and the next day we presented a gift of \$10,000 to the Ruskin Elementary School. At this ceremony, I looked around the room and realized that I was among women who really care about making a difference; I've never felt so proud to be a Pi Phi.

As I sat on the plane returning to Boston at the conclusion of the convention, I couldn't help but smile to myself. The atmosphere that weekend was something I could never have expected; to walk into a room of nearly a thousand strangers and feel completely welcomed is something I can only feel from Pi Phi. I came back with a greater appreciation, love, and dedication to my sorority, and I will never forget one of the best weekends of my life.

## NY Deltas Host Trustees Breakfast

The New York Delta Chapter of Pi Beta Phi was chosen by the Cornell University to host the annual Greek Trustee Breakfast on Saturday October 22.

Pi Phi was selected from among the 64 different chapters of the Panhellenic Association, Intrafraternity Council, and the Multicultural Greek Letter Council. Being chosen was an honor—as well as an indication of the strength and great reputation of New York Delta. Attendees of the breakfast included 15 New York Deltas, New York Delta alumnae, staff members of the Office of Fraternity and Sorority Affairs, the presidents of the three councils, Susan Murphy, and 50 members of the Board of Trustees of Cornell University.

It was a wonderful opportunity for those 15 NY Deltas to chat with the trustees about Cornell, Greek life, and Pi Phi specifically. As the Greek Alumnae Council spoke about its aim to continue to raise funds for improvements for the many chapters on campus, Pi Phi stood as a shining example of the greatness that can be achieved

with a strong alumnae base.

The breakfast was not only a great opportunity for the chapter to be able to shine in front of this very important group of individuals, but it was also an occasion to celebrate the 50th anniversary of the house at 330 Triphammer Rd. We were lucky enough to have many New York Delta alumnae present, including

Marge Smart '57, who actually lived in the house the year it was built. She and other alumnae were able to share great memories and stories of the early days of 330 Triphammer.

It was a truly outstanding way to celebrate a tremendous milestone in New York Delta's history.

## Semester Abroad Strengthens Sister's Pi Phi Ties

"Are you sure you want to go to Kenya," my friends asked as I packed my bags and said my farewells. Many Pi Phis were going abroad for the semester, but traveling to Africa had not crossed many minds but my own.

I was to study abroad for four months in Kenya and Tanzania through the School for International Training and would be focusing on development and health issues in East Africa. Was I making the right decision? Would I miss out on the mini Pi Phi reunions across Europe? Would my friendships with my sisters be just as strong when we all returned?

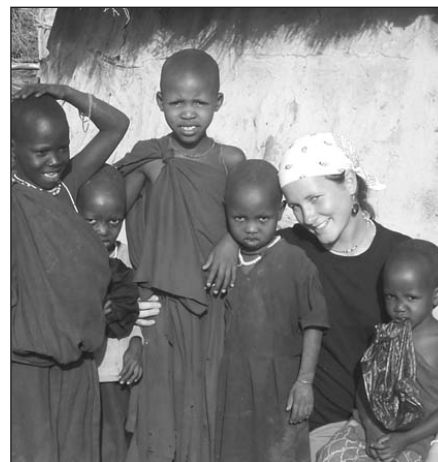

I couldn't have envisioned a better experience. From hunting with Maasai warriors and learning how to cook over an open fire to dancing up a storm in Nairobi clubs and learning how to speak Swahili to watching elephant mothers teach their young to walk and rocking babies to sleep at an AIDS orphanage, my adventure was remarkable and nothing less than

phenomenal.

From Ireland to Kenya to Australia, my sisters and I put our marks on the world—indulging in global and cultural experiences—to better ourselves and our education. We put ourselves outside of our comfort zones, eager to soak up and enjoy our journeys in unfamiliar places.

I remember one moment of my experience vividly. I was in a fishing boat on the Indian Ocean, straining to help pull in a 400-pound stingray. I remember stopping and thinking to myself, "This is a very strange moment of my life," and noting that my fellow Pi Phis would be hysterically laughing, watching me partake in the catch. But at the same time, I knew my sisters were all having similar experiences—as I could clearly picture Whitney playing with Aboriginal children and Joanna learning an Irish jig in a quaint pub.

We all had incredible experiences, and having studied abroad, I think

*Cameron Polek '06 in Kenya.*

we all understand each other a bit better. We miss our new-found homes in foreign lands but are happy to be back with each other as seniors, ready to put our last mark on Cornell.

## Sisters Unite At Abroad Dinner

At the start of the semester, everyone was very anxious to see the New York Delta Pi Phis who had been abroad, traveling the world.

We decided to schedule the annual abroad dinner for both the girls who were abroad and the new members who did not have a chance to meet them in the spring semester. The dinner was held at the house, and all of the girls who had been abroad arrived toting pictures, scrapbooks, and memories to share with everyone. While we ate dinner, each girl who had been abroad introduced herself and talked about where she had been last semester. They had traveled far and wide, including destinations such as England, France, Australia, Kenya, Spain, and Italy!

The sophomores who attended were now able to associate faces and stories with the names they had heard so many times before. Juniors who were planning to go abroad in spring 2006 also attended, and it was very helpful for them to hear about what to pack, pre-departure preparation, and what not to miss when abroad.

It was so special to be able to have our own sisters who had been

abroad share their experiences rather than to go to a large, impersonal abroad information session. We could hear first-hand accounts, see actual pictures—as opposed to those of a brochure—and really get a sense of what spending six months to a year in another country is actually like!

I am planning to go abroad to Paris this coming spring, and the abroad dinner helped me tremendously. Although it will be sad to be away from Pi Phi for an entire semester, I cannot wait until I am a returning senior—able to share my stories with other sisters planning to go abroad and to meet the new class!

The abroad dinner was a very nice way to start the year and truly blended all of the different pledge classes together.

### *Sophomore Relates Live-In Perspective*

As a sophomore, responding to the typical question of where you live is always an experience. "I live in my sorority house," you say, with a twinge of pride. Now that response is very common with girls at Cornell—but the twinge of pride due to your sisters is something unique to Pi Phis.

One sophomore said, "Living in the house has made me feel more connected to the current sisters and my pledge class." There is a sense of camaraderie when you know you will be living with over 35 girls for a year. While the endless social events, philanthropy events, and activities of last year introduced us to the house, it is living here that has really showed us what Pi Phi is about. It makes you bridge the gap from being a pledge to feeling and acting like a sister.

At the house, someone is always awake for you to talk with. You can always find someone who wants to go out—whether to parties or the library—and having over 35 closets is great.

She is expecting baby number two in August. **Lauren O'Rourke '88** is the mother of a 10-month-old girl, and she and her husband just bought a home in Wayland. **Nicole Beauregard '90** moved back to Boston from the UK, and she and her husband and son recently bought a home in Wellesley. **Rebecca (Church) Bartlett '88** still lives on Nantucket Island with her husband and two daughters. And, of course, my friendships cross state borders, and I still see **Stefanie (Morak) Kalman '88** and **Kara (Danehy) Maloney '88**. Stefanie's family has continued to expand (her third child, Jordan, was born in January) and she and her husband bought a home in Roslyn, New York, and will be leaving Manhattan this summer. Kara's life has also continued to grow and her twins (Shannon and Shane) were born in April and join her two other children. **Jana (Dlouhy) Curnow '87** is still living in Colorado with her husband and two children and is true to her hotelier roots—now working for Roaring Fork Resort. **Julie (Little) Terach '87** now lives in Goshen, New York, with her husband and brood of four. As for me, I ran my fourth marathon last November (New York City marathon) and will be riding for the eighth time in a two-day nearly 200-mile charity bike ride in August (from Boston to Provincetown). I am still working in the public relations field and will be teaching a graduate communications class at Regis College this summer."
